

Dear Pastor Coomer,

Here is my testimony from the conference. When we had Dr Coomer come to our church in Ireland, my thought was that the conference would be good for our church people personally, as well as a help to all of us in our outreach to others. For myself, I was looking for some solid steps of how to walk through a counseling session with a person in need. In the Sunday services before the conference, and again on the first day of the conference, the Lord really opened my eyes to how often I allow busyness to cause my personal relationship with Him to become mechanical. Many times I was going through the motions, but not taking the time to meditate on the Word of God and be still and listen to Him speaking to my heart. The reality that I cannot help others with any issue until I first have a real, daily, passionate relationship with God, became apparent to me through the very practical teaching of God's Word. Many people in are church are making some great decisions and spiritual changes in there lives. The conversations around the church have become more God focused, and less about the frivolous things surrounding our lives. We praise the Lord for the Coomer's and the way they have allowed the Lord to use them in this ministry. This was a life changing event for me.
